Sleep Disorders Financial Policy / Insurance Information

Your dentist, physician, or other health care provider has referred you to our office because of our unique expertise in treating sleep disorders. Our relationship with you as well as our ability to treat you is our highest concern. We are providing you with this information to help avoid misunderstandings regarding payments or insurance. Our aim is to never provide a service for you without first explaining the fees for that service.

Our doctors are in a unique position as they have D.M.D. (dental) credentials and provide services customarily covered under your medical insurance benefits. Claims for evaluation and treatment with oral appliance therapy for obstructive sleep apnea are routinely filed under a medical insurance policy, not a dental plan.

Many medical insurance policies will provide reimbursement for a portion of your sleep disordered breathing evaluation and treatment. If your policy provides benefits for obstructive sleep apnea and does not exclude oral appliances, your carrier may provide reimbursement of a percentage of the treatment fees. Medicare, Medicaid and Tricare provide coverage for oral appliances.

We suggest that you review your medical insurance policy or "Benefits Booklet" or call your insurance provider so that you may be aware of the specific benefits and limitations of your medical contract.

Payment may be required at the time of service. If your policy has exclusion for treatment or if you are not covered by insurance, payment will be due at your appointment. The patient is responsible for all fees incurred in this office regardless of possible insurance coverage or delays. Coverage for procedures and the amount of reimbursement varies by insurance carrier. Some procedures may not be covered by your insurance.

We hope that this information is helpful. We are glad to have you as a patient, and look forward to helping you with your sleep disorder.

I have read and understand the above financial policy and understand my responsibility for payment.

We may also disclose health information about you in response to a subpoena, discovery request, or other lawful process instituted by someone else involved in the dispute, but only if efforts have been made, either by the requesting party or us, to tell you about the request or to obtain an order protecting the information requested.
