Snoring Disorders

Financial Policy / Insurance Information

It is our goal to treat you with the highest clinical and ethical standards. We have done this for many years in order to warrant the respect of our patients and medical and dental colleagues. Our office has a unique expertise in treating snoring and sleep disorders. Our doctors are some of the highest credentialed and respected doctors in the field.

Our relationship with you and our ability to treat you are our highest concern. Therefore, we are providing you with this financial information.

Snoring is a unique disorder. Snoring without a diagnosis of sleep apnea is not covered under your medical insurance benefits. Therefore a claim for evaluation and treatment with oral appliance therapy for snoring will not be filed with your insurance carrier.

We deal directly with each patient and ask you to pay us for services as they are rendered on a visit-by-visit basis. This means that at the end of your appointment we ask for payment by check, CareCredit, or credit card.

We do realize that for many people payment for needed treatment is a hardship. We will do everything that we can to help you work this out. We offer an extended payment plan or interest free payment plan through CareCredit. If you know that you would like to use such an option, please talk to our office staff and they can give you further information.

We are glad to have you as a patient, and hope to help you with your sleep disorder and that you also have an enjoyable time in our office.

Thank you for your understanding.

I have read and understand the above financial policy and agree to abide by it.
